- Unique magnetic connection of magnetic rail to the system
- Self locking connection feature
- Twin Halogen Lamps for superb display illumination
- New style wheeled carrybags for easy transportation

The Eurostyle Collection from eurostand display

Unique and totally magnetic Pop up

With magnetic graphic hanging kits and silver anodised finish to the structure, the Eurostyle Pop Up is a unique, high quality display product. Magnetic connection of the graphic support rails to the structure, plus the self-locking magnetic locking rod connectors, make this system simple to erect.

Easy to transport and assemble

Eurostyle pop up display kits are available in 3 x 3 curved and 4 x 3 curved options. Each kit comprises pop up structure with protective cover, magnetic rails with carrybag, magnetic graphic hanging kits, magnetic tape and two halogen lamps with bag. A trolley carrybag is provided to transport the structure and magnetic rails with a separate trolley carrybag supplied to carry graphics and the lighting.

The newly designed trolley carrybags takes the strain when transporting your display

The pop up structures for both 3 x 3 and 4 x 3 systems are supplied in high grade silver anodised finish

The Eurostyle pop up is so simple to erect. Once removed from the carrybag, extend the structure to it's full height.

Once fully erect, affix the vertical magnetic rails onto the framework. As this is also a magnetic connection, fixing could not be simpler and no need to overstretch when affixing rails to the structure

And finally, what truly makes this system 100% magnetic, affix graphics with the special magnetic graphic hanging fittings.

As the structure is extended, the four magnetic locking rod connectors automatically engage to secure the pop up frame.

Pop up graphic panels

3 x 3 System – 5 graphic panels each 2235mm h x 673mm w

4 x 3 System – 6 graphic panels each 2235mm h x 673mm w

Note: The two graphic end panels on each system curve round rear of structure

3 x 3 Structure + 18 magnetic rails

4 x 3 Structure + 21 magnetic rails

Net Weight 24.00kgs

Quality finish and function ability for the perfect solution

The Eurostyle ST folding literature presenter offers great value for money. Incorporating three A4 size clear acrylic literature dispensers and padded carrybag, it can be assembled in seconds.

Fast folding versatility for instant presentation

The Eurostyle DL folding literature presenter is an incredibly versatile and practical solution for literature display. Its silver anodised finish, incorporating clear A4 size acrylic literature trays (with double sided display option), make this the ideal choice. Comes with a free aluminium carrycase.

The Eurostyle ST folding literature presenter assembles in seconds

The unit is supplied with a heavy duty padded carrybag and weighs only 5.7 kgs

Remove stand from the carrybag, fold up the framework to the optimum height and locate locking plates onto each side of the stand

The A4 size acrylic dispensers have capacity to accommodate substantial quantities of literature, which can be kept in the holders and transported with the unit if desired

Fast folding Eurostyle DL Literature presenter

Remove unit from the carrycase, fold up the framework to the optimum height and slide locking mechanism onto the connector located on the base of the presenter

The Eurostyle DL has three A4 size display trays on one side and two trays on the reverse to allow double sided literature presentation

The net weight of the presenter is 5.5kgs and is easily transported in the stylish aluminium carrycase provided

Net Weight ST 5.7kgs
DL 5.5kgs

The ultra lightweight roll up literature presenter

The Eurostyle M8 is light and practical, making it ideal for all occasions. Includes roll up mesh fabric literature pockets with silver features.

Also available: Eurostyle M4 with four A4 size literature pockets.

Classically designed for the ultimate in literature presentation

For the discerning client, the Eurostyle CL Classic literature presenter is a stylish, high quality display solution.

Travel light with either the Eurostyle M4 or M8 roll up literature presenters

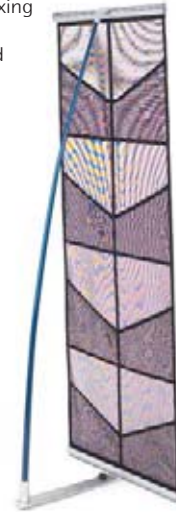

Each literature display comprises A4 size roll up mesh pockets, base plate, carbon rod support and carrybag

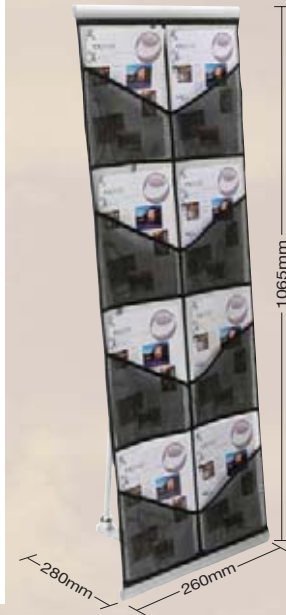

Remove display from carrybag and Insert three part rod support into base plate

Slide the aluminium rail affixed to bottom of mesh pocket onto base plate. Arch the support rod and slide the aluminium rail on top of mesh pocket onto the fixing at top of support rod

Literature can be easily inserted into the mesh fabric compartments, which have eight pockets on the M8 and four pockets on the M4 version

Weighing either 1.65kgs (M8) or 1.40kgs (M4) the system is ultra lightweight to carry.

Feature your literature with the stylish Classic literature presenter

Remove components from carrybag and slot linking rods between the two bases

Slot rods together to optimum height, extend the tension wire from the base units and attach to top of the rods

Affix A4 size acrylic dispensers onto the rods and slide each dispenser onto appropriate locator fitting

The five A4 size acrylic dispensers have capacity to accommodate substantial quantities of literature

Net Weight CL 3.5kgs
